

Engineering EXPO is the College of Engineering's Celebration of National Engineering Week. Our main goal is to educate elementary, middle and high school students on how math, science, engineering, and technology affect our everyday lives.

Engineering EXPO is a showcase of the engineering student societies, organizations, and companies to illustrate the fun in engineering. In addition, we want to excite your students to explore new pathways and careers.

The events are free at EXPO. There will be available for purchase: food, souvenirs, and candy. We recommend teachers let their students know to either pack a lunch or bring money.

Exhibits from corporations, government and the USF Engineering College will highlight projects and products used daily by engineers. Some of our traditional activities are:

- Physics: The Science of Everything Show
- Chemical Magic Show
- Laser Light Show
- Robot Demonstrations
- SECME Regional Competition (February 14)

Have some "hands-on" engineering experience!!

36th Annual Engineering EXPO

The 36th Annual USF Engineering EXPO

Friday,
February 13, 2009
9:00 am - 4:00 pm

Saturday,
February 14, 2009
9:00 am - 3:00 pm

Engineering Complex
at the University of
South Florida Tampa
Campus

Please bring your class by for an exciting day of engineering!
