COLLEGE OF ENGINEERING

ngineering expo

USF's 38th Annual Engineering EXPO

Friday, February 19, 2010 and

Saturday, February 20, 2010

9:00 am - 4:00 pm

**Engineering Complex, University of South Florida
Tampa Campus**

Engineering EXPO is the USF College of Engineering's Celebration of National Engineering Week. Our main goal is to educate elementary, middle and high school students on how math, science, engineering and technology affect our everyday lives. In addition, EXPO showcases exhibits from engineering student societies, organizations and local companies to illustrate the fun in engineering. We want to excite your students to explore new pathways and careers!

All activities at EXPO are free! Food, drinks, souvenirs and candy can be purchased at the event. We recommend teachers let their students know to either pack a lunch or bring money.

Some of our traditional activities are:

- Physics: The Science of Everything Show
- Chemical Magic Show
- Laser Light Show
- Robot Demonstrations

Please bring your class for an exciting day spent learning more about engineering!

Register your group at: <http://expo.eng.usf.edu>
